

REACH - Declaration of Conformity

22. April 2021

Peltzer & Co. GmbH is a manufacturer of standard and operating parts, technical plastic parts and metal-plastic-combinations.

Under the European Chemicals Regulation (REACH), we are classified as a "downstream user." Since our products do not release hazardous substances during proper use and storage, Peltzer is not subject to the mandatory registration of contained substances.

We fully comply with current REACH requirements, including authorization obligations and restrictions on the use of certain chemical substances. Our aim is to keep our product range free from substances of very high concern (SVHC) as defined by REACH.

To support this objective, we monitor the "Candidate List" published by the European Chemicals Agency (ECHA) and regularly assess our products against the listed substances.

This statement refers to the Candidate List as last updated on **January 19, 2021**.

To the best of our knowledge, none of the substances currently listed are present in our products in concentrations above 0.1% by weight.

SVHC Inclusion Date: January 19, 2021 or earlier

Link to Candidate List: <http://echa.europa.eu/candidate-list-table>

Where necessary, Peltzer takes appropriate steps to substitute such substances and to inform our customers accordingly.

Attachment XIV (Authorization List)

If any of our products were to contain substances subject to authorization under Regulation (EU) No. 143/2011, we would seek either to replace the substance with an equivalent alternative or to obtain authorization for its specific use. At present, our products do not contain any substances listed in the current version of Annex XIV.

Attachment XVII (Restrictions List)

Regarding the restricted substances listed in Annex XVII of the REACH Regulation, we confirm that our products do not contain these substances above the specified concentration limits and that we comply with all applicable restrictions.

Should you have any questions or require further information, please do not hesitate to contact us.
